Re: Crossing South River Street

As I have mentioned at many dinners, I am very concerned about the way people are crossing River Street to come to the Center. We are aware that people are crossing in the middle of the street with traffic racing by them. Please cross only at the lights on East Kansas Street or at East Broadway and in the crosswalk. This will ensure safe passage as you make your way to the Center.

Thank you for your adherence to this request and we look forward to having you join us.
